A Full-stack web developer with experience in HTML/CSS and Javascript, currently in the process of completing my diploma. My previous experience as an Airline engineer allowed me to gain troubleshooting and problem-solving skills to identify defects and improve reliability. I am motivated to continue learning and applying these skills working as part of a full-stack web developer team.

TECHNICAL SKILLS

Programming Languages - HTML/CSS, JavaScript

Frameworks / Libraries - SASS/Bootstrap/Tailwindcss, React/Redux, Node/Express

RECENT PROJECTS

My portfolio - *React, Node, Express, MongoDB, Mongoose, NodeMailer, Sass*

- Built a full-stuck website with Reac.js and Node.js
- Designed responsive website to design detail without the use of Bootstrap or Tailwindcss
- Database is used MongoDB and Mongoose
